1.0 ABOUT ALETHEIAACADEMY

MISSION

Aletheia Academy has a challenging and inspiring mission to improve and enrich its students' academic prospects through targeted, focused and personalized tutoring.

We believe that children need a formidable foundation in literacy, numeracy and science to help them excel in other areas of their lives. It is also our firm belief that all young children have academic abilities and therefore we provide the right opportunities for them to apply their knowledge. We personalize learning so that every child is given the opportunity to reach their full potential.

We understand that a child's ability can blossom with the right support and encouragement. We exist to enforce teaching and learning given in KS1, 2, 3, 4 and 5. Our unique understanding of the national curriculum for schools is the driving force behind our success.

VALUES

1. Providing a learning environment where each child is encouraged to develop to the full extent of their ability; where each person is valued and is made aware that they have the potential to make a positive contribution to the centre; where the school children are brought-up to build a good self-image.
2. Creating opportunities for all children to learn and achieve through our teaching by utilizing all the time we have with our students to teach, assess and advise.
3. Providing an education which places importance on the development of the whole child, academically, intellectually, physically, emotionally and socially.
4. Encouraging the partnership between home and school and encouraging parents to take an active part in their child's education.
5. Providing equal opportunities at the Centre and treating all individuals fairly.
6. Using appropriate technology to enhance the children's learning.

APPROACH

We use our own materials and those of well-known publishers to support teaching from the National Numeracy, Literacy and Science Curriculum and to reinforce problem-solving and reasoning skills.

Students sit mock exams at the Centre under normal examination conditions. We prepare them for their real exams and develop them to acquire coping strategies under stressful exam conditions.

Our targeted tutoring has helped many children gain admission into Grammar and other Selective Schools and many more have boosted their National Curriculum levels as well as made notable improvements in their respective classes which have culminated in successful GCSE and A-level results.

We have mentored many students and liaised with countless parents, offering free advice on the choice of subjects or schools for their children. Furthermore, we have provided many one-to-one free sessions for parents who want to understand the national curriculum leveling and their implications on their children's future academic life.
